MITCH MERMAGEN

Strategic Execution Architect • Technology Transformation Executive

16+ Years Turning Vision Into Reality

> **I don't just advise—I execute.** I transform ambitious visions into operational reality. Most consultants give you a deck and disappear. I roll up my sleeves, build working systems, train your teams, and leave you with infrastructure that scales.

RECENT TRANSFORMATIONS (2026)

Voxable AI Launch (30 days)
Built AI voice service from zero to live campaign: 230 qualified leads, complete outreach system, automated infrastructure
✓ **First revenue within 24 hours**

Twitter Automation (1 day)
12 Python scripts, 1,548+ tweets, 4x daily posting, $25 cost for 34 years runtime
✓ **Production system in hours**

Creator Platform MVP (1 day)
Complete 3-page site, fan audit tool, design system, API-ready architecture
✓ **Deployable MVP from concept**

Infrastructure Migration (2 days)
240K subscriber migration plan, custom system, production-ready architecture
✓ **$36K/year savings identified**

90-DAY TRANSFORMATION ENGAGEMENTS

→ **Tech Velocity Unlock ($75K-100K)** - Audit pipelines, implement CI/CD, train teams. Outcome: 30%+ faster releases

→ **Strategic Execution Sprint ($100K-150K)** - Translate vision to roadmap, build delivery teams, establish OKRs. Outcome: Momentum in 90 days

→ **Operational Scale-Up ($75K-125K)** - Document processes, build PM infrastructure, capacity planning. Outcome: Scale without chaos

→ **Rapid MVP Build ($50K-75K)** - Technical architecture, MVP development, launch infrastructure. Outcome:

Deployable product in 30-45 days

TECHNOLOGY EXPERTISE

AWS • Kubernetes • Terraform

Jenkins • GitHub Actions

Python • Node.js • React

Jira • Linear • Scrum • SAFe

OpenAI • Anthropic • LangChain

Chef • Ansible • Docker

BACKGROUND

Capital One (8+ years)

Led 12 Agile teams (50+ people), saved $1.5M through automation, built CI/CD serving thousands of engineers, reduced release cycles 30%

JPMorgan Chase (4+ years)

Led platform migrations, built TCO models, managed cross-functional delivery teams

Super Massive Ventures (President)

Technology holding company: 40% efficiency boost, 95% project success rate, acquisitions & AI/ML focus

Evil Studios (CEO)

Gaming company managing 4 SaaS products, 3 service businesses

WHO I WORK WITH

Growth-stage companies ($5M-$50M ARR) • PE-backed firms • Fortune 500 innovation teams • Serial entrepreneurs

Companies struggling with: slow delivery, strategy/execution gaps, scaling chaos, competing priorities, technical bottlenecks

EXPECTED ROI

30%+ faster delivery • $500K-$2M+ cost savings • 40%+ productivity improvement • Reduced technical debt • Scalable infrastructure

Typical payback period: **6-12 months**
